

BEFORE THE SECRETARY ELECTION COMMISSION OF PAKISTAN AT  
ISLAMABAD

App NO; OF 2018

Muhammad Saleh S/O Ghulam Mustafa, Muslim

Adult by Caste Indhar R/o Village Muhammad Ibrahim Indhar,

Taluka Pano Akil District Sukkur.....Applicant

VERSUS

Provincial Election Commission of Pakistan .....Respondents.

OBJECTION ON DELIMITATION OF NATIONAL ASSEMBLY NA-206 AND 207  
SUKKUR-1 AND II

That the applicant respectfully submits his objections on the newly delimitation on the seats of the NA-206 Sukkur 1 and NA-207 Sukkur II as under;-

That applicant is registered voter of the NA-206 Sukkur-1 bearing Vote No; 252, Block Code No; 324020118 and has cast his vote in the Deh Indharki Taluka Pano Akil District Sukkur.

That applicant being the possessing the political thoughts and has also contested election at Sukkur at P.S-II here in after called P.S 25 Sukkur IV as well from the seat of NA-199 here in after called NA-206, according to present delimitation.

That applicant also willing and careful for up coming elections for Sukkur constituency NA-206 Sukkur-I and NA-207 Sukkur-II.

That as now election commission has made the delimitation without looking at the facility and care of voters as well as candidates and has also made such delimitation which creates the difficulties to candidates to reach at his voters at their house as well as to show them what is the importance of his vote what change can be brought by costing his vote to eligible person and voters has been kept away to see who is better for his who is eligible for his vote.

That due to adding and excluding the areas from city to an other by this way the right are going to be deprived of voters and areas are suffering due to away from the approach of the person who have been succeeded from tier consistencies.

That as the earlier the National Assembly seats were known as NA-198 now is known as 207 which is consisting on Sukkur City and some areas of Pano Akil which areas of Pano akil were included the person of Tappo Hingoro and

Tappo Nauraja suffered as well as candidates felt difficulties to reach his voters and NA-199 now known as NA-206 was on the basis of the Out side of sukkur consisting out side area of Rohri Salehpat and pano Akil City as well as some outside area and Taluka Salehpat.

That now the delimitation has been made and mostly changes has been made on which applicant objects being voters and might be candidate and applicant feels for his voters present delimitation creates the problems if this election commission will look at delimitation of previous status of the National Assembly seats.

That my most important objection regarding the NA-206 are these that NA-206 is mostly consisting on Taluka Pano AKil and Taluka Salehpat and rural area of Taluka Rohri, however mostly population of Taluka Pano Akil as well as , population of City are included in NA-2016 Sukkur -1, so, as Tappo HIngoro and Tappo Nauraja New has been added in the NA-207, however their population is near by Taluka Pano AKil so, theses two Tappa HIngoro and Tappo Nauraja New may kindly be added in the NA-206 Sukkur 1.

That it is also my proposal regarding the NA-207, as applicant has already prayed for adding Tappo Hingoro and Tappo Nauraja New may be excluded fro NA-207 and added in NA-206 Sukkur-I.

That so area Tappo Sadhuja and Tappo Shahpur as these areas are near by to the NA-207 so they may be added in NA-207, and excluded from NA-206 Sukkur-1, by this way voters as well as candidates will get facility to cost their vote as well as candidate will be easily to approach to their voters.

That further proposal and suggestion will be made at the time of hearing on these objections on present application.

That my proposal may kindly be accepted just in the interest of voters as well as for the welfare to solve the necessary problem of the voters in the best interest of justice.
