Subject: **COMPLAINT AGAINST DELIMITATION PERTAINING TO DISTRICT MARDAN**

Respected Sir,

I am a bonafide resident of district Mardan and a registered voter of village Sheikh Yousaf Patwar Circle (PC) Manga, Shumariati Code 028020324, Silsla No 638, CNIC 16101-5875866-3. The entire PC was primarily linked with former NA-9 and current NA -21. This has now been shifted for NA-22 against the wishes and expectation of the people of the area. The following are few of the hard ground realities and sound justification on the basis of which I can easily but most humbly reject the current delimitations conducted by your office.

PART A

1. The current NA-22 starts from PC Manga which touches the boundaries of District Charsada and District Nowshera on the one hand and District Malakand and District Buner on the other hand. It is like an arch touching four Districts, which is completely against common sense, traffic issues and against the principles of drawing boundary lines for a District map.
2. The police station of the PC Manga along with Shah Baig of PC Saro Shah and judicial system (Court Kachehri) is in Tehsil Mardan while these Patwar Circles have been shifted to Takht Bhai against the sweet will of the people of the area.
3. The above mentioned Patwar Circles and areas are included in the de-limitation plan for Provincial Assemblies of Tehsil Mardan while they are shifted to Tehsil Takht Bhai under the current de-limitation plan of National Assemblies 2018. Previously these areas were included in both Provincial and National Assembly areas of Tehsil Mardan.
4. It is highly ambiguous and confused keeping these areas which are near to the District Nowshera and District Charsada will cross a long rout touching District Malakand and than reaching out to it final destination touching the boundaries of District Buner. This is highly impossible and quite alarming both for voters and for candidates of National Assemblies which require a distance of two hours to reach to the other side of the de-limitation plan of NA-22 (Current).

5. This is a request to your office to kindly restore these areas to its original place in NA-21 (current) formerly NA-9 Mardan-1.
