The Secretary,
Election Commission of Pakistan,
Islamabad.

Subject : PROPOSED PLAN FOR DISTRICT KECH.

Sir,

In reference to proposal regarding reformation of constituencies of Balochistan, we congratulate Election Commission of Pakistan on completion of this tough task as per the expectation of the whole Pakistani Nation.

Sir, after formation of constituencies, one extra seat of Provincial Assembly and one of National Assembly created in my constituency i.e. District Kech. No Doubt your proposals are in great benefits of the inhabitants. Sir, as your honour is well aware that each district of Balochistan contains areas of Category A and B. In the light of this, I am submitting following proposals before the Honourable Election Commission of Pakistan:-

1. UC Gokdan (Population 31745) of PB-46 is included in PB-47 in proposal of ECP. Sir, PB-46 is counted in A area and it's a metropolitan city, where only local police is operating and Lavis has no function here. UC Gokdan is attached with PB-46 without any gap of unpopulated area. On the other side, PB-47 comes in category-B (Rural) where only Lavis is allowed to function. There is a more than 10 kilometers distance in UC Gokdan and first populated area of PB-47. Moreover, M-8 of CPEC is separating PB-46 (right) and PB-47 (left), but if Gokdan included in PB-47, it will remain at the right of M-8 but counted in left of M-8 (PB-47).
It is, therefore, proposed that UC Gokdan may kindly be remained in PB-46 as inclusion of Gokdan in PB-46 will make it a complete constituency of Provincial Assembly.
2. UC-Ghina was in PB-46 (Cat-A) and now included in PB-48 (Cat-B) in proposal of ECP. UC Ghina is completely attached with PB-48 without any distance with the populated area, therefore we don't have any objection on this change.
3. UC Gomazi shown in PB-48 but its touching the well populated area of PB-47. It is proposed that UC Gomazi may be included in PB-47 Kech-III. This will balance the population in all PBs.

Sir, all relevant documents supporting my above proposals are attached herewith. I hope that my above proposals will be considered positively in the benefits of inhabitants of our area. I shall be very thankful ever for this fruitful change in my constituency.

Thanking you in anticipation.

With warm regards,

(Muhammad Akbar)
