Subject

PROPOSED DELIMITATION OF RAWALPINDI DISTRICT PROVINCIAL ASSEMBLY  
WISE.

It is stated that during carrying the exercise of the delimitation of PP-15, PP-16, PP-17, PP-18, PP-19 & PP-20 of Rawalpindi District, the natural boundaries i.e. Main Murree Road, Main Dhoke Hassu Road, Main Saidpur Road, and Nullah Lai, which separate different cultures have not been taken into account with the result that different cultures were mingled up while formulating the new constituencies, and thus contiguity and geographical compactness of areas which are main principles of delimitation were ignored. A glaring example is charge 26 which falls in the Centre of City from which Circle 4 has been taken out and has been included in the charge of Chaklala Cantt: whereas boundaries of charge 26 Circle 4, and Chaklala are not connected in any way only a chunk of city has been taken from the centre of city and has been thrown with Chaklala Cantt:.

keeping in view the basic principle of delimitation, a revised delimitation plan is proposed with the request that if the proposed delimitation plan is adopted, the target of multiple cognate features, contiguity and culture harmony will be achieved.

A proposed plan is enclosed herewith.
