**D/O Muhammad Hussain Fakhri**

**Resident of House # P-294/6, Street # 5,**

**Khalidabad, Faisalabad**

**Subject:-**

**Objections on wrong division /modification or alteration of constituency Ex PP70 – New PP-115 Faisalabad under the section 21(3) elections act 2017.**

I am Mamoona Hussain, my residence is at Khalidabad Faisalabad, Ex PP-70, New PP-115, UC# 116, Ex NA 84, New NA 109. It's the great pleasure for us that the Election Commission Of Pakistan have made new constituencies all over the Pakistan. But here I have many objections on this new constituency PP-115, Ex PP-70,

I am sorry to say that The election Commission were not kept in new constituency the main roads and population of PP-115. The division of this constituency has been screwed by the election commission of Pakistan which is injustice, immoral, unethical and cruelty with the voters and candidates of this constituency of PP-115 EX PP-70.

**Grounds**

It seems that the half city of Faisalabad has been added in this constituency. You can see the division on your government map which looks very odd and unethical.

AA 21/8/2019

(3)

No any other constituency is like this constituency. Our Election Commission added many areas from 5 other constituencies in it deliberately. You can extend our constituency in a smooth way but don't make screw and strange it which will be the case of botheration for the people of this constituency.

Many areas are removed from this constituency which is the center part of this constituency and many areas are added in this constituency which is far away from its center point without any solid reason.

The election Commission added many areas which were never being the part of this constituency. Main roads and boundaries of area are not kept in mind during the time of its division.

• **My objections are giving below**

1. **Remove** or delete these **charges # 14905, 14937, 14956, 14957 and 14973** from this PP-115.
2. **Add these charges** which are the center of this constituency **charge # 14947, 14949, 14950, 14951 in PP-115** which are deleted deliberately.
3. Geographically, the division is immoral and unethical.
4. **Remove the uneven areas** of **PP-116, PP-117, PP-112, PP-114 and PP-113** which are **deliberately added in PP-115**
5. Half city is added in this constituency
6. It's the largest city constituency which is not acceptable for us.
7. Voters are confused by the division of this constituency

**Population**

Population of this constituency is 2,52,486. If you don't delete above mentioned charges from this constituency then its population will exceed over 300,000 and then population wise that will be the biggest provincial constituency of the country. In past when it was PP-70 its Population was 139,145.

*Supporting documents which are attached*

3/03/2018 (4)

1. Government Maps of Old PP 70 and Now PP115
2. New Government Map of PP 115
3. Proposed Maps for PP-115 on government Map
4. Proposed Map on Google Map for PP-115
5. List of charges PP-115, 114,116,117,112,113

The alternate change which I have recommended for PP-115 will be very help for both candidates and voters to contact each other's geographically and compatibility with problems.

I hope you will correct the division of this constituency PP-115 as I have explained in detailed which will meet legal, moral and political requirement. I am ready to appear before you to explain my objections when you will like. Again I hope you will not disappoint me and the voters of PP-115.

Regards

*Mamoona*
