

To,

THE SECRETARY

Election commission of Pakistan

G5/2 Constitution Avenue,

Islamabad.

1  
A/3/03/2018  
1-2

**Subject: Proposal Under Section 21(3) election act 2017 read with rule 12 of election rule 2017 regarding alteration of modification in the Constituency PP 37 previous PP 129.**

Dear Sir,

Reference to Election Commission of Pakistan notification F8 (3)/2018 dated 5 March 2018,

The under signed is a registered voter of electoral block No 180030904, village BudhaGorayaof NA-73 and PP-37 of Sialkot district, thus is entitled to file a proposal for alteration in the extent of the constituencies of Sialkot district because the same as notified by the Commission is not based on geographic realities of the district. It also contains many errors and omission and needs improvements as per detail given below:

- The population of Sialkot district according to Population 2017 is 3,893,672/- and there is no change in number of National and Provincial assemblies constituencies which remains 5 and 11 respectively .Therefore, no major change was required to re-delimit all the constituencies afresh except for minor changes in the extent of existing boundaries of constituencies to balance the distribution of population.
- Area of former PP 129 has been divided into 3 newly created constituencies i.e. PP-37, PP-38 & PP-39 without having regard to the principles of delimitation laid down in the subject cited ACT and because of that most of the population is badly affected.
- Marking of maps showing the areas assigned to the constituency does not match with the description given in the text like as MatakayNagra&Rachara PCs of Buda goraya QHs are part of PP-37 while in Map are part of PP-39. AdamkayNagra PCs of Pasrur 1 QHs in list of constituencies is part of PP-36 while in MAP part of 39, Begowala TC & Bopalwala TC in list is part of PP-40 While in Map it falls in PP-39 etc so should have to make amendment to match these.

HA/31/03/2018 2

- PP-37, 38 and 39 are not compact and contiguous at all and the map marked by the Commission shows the reality highlighting the area falling PP-39 make the position clear and is overlapped by the other constituencies with an estimated gap of 15km in between PP-38 & PP-39 Areas like MatakayNagra, Rachara etc. PCs of Buda goraya QHs and PP-37 are far away from the remaining area.
- PP- 37 is very lengthy and it touches borders of 3 districts i.e. Narowal, Gujranwala, Sheikupura and estimated distance within PP-37 is estimated more than 70km and same problems is also with other constituencies of Sialkot but by my proposal for most of the constituencies will reduce more than 50%.
- Some QHs areas are not tagged together for example Rachara & Panjgrian Pcs of Buda Goraya QHs and Adamkay, Bagh & Charwand Pcs of Pasrur 1 QHs are far away from rest of the QHs area so these factors require consideration.
- There is no proper road link within the new designed constituencies and have to travel long from others constituencies which overlap the same to visit within the PP-37.
- The constituencies of Sialkot district have been drafted in violation of Rule 5 of Delimitation Rule 2017 which reads as under

" (5) As far as possible, the delimitation of constituencies of an Assembly shall start the Northern end of the district, or, as the case may be, the agency and then proceed clock-wise in zigzag manner keeping in view that population among the constituencies of an Assembly shall remain as close as may be practicable to the quota:"

While these have been started from south of the district instead of North So the undersigned requests the Honorable Commission to consider the above facts and order the changes for adjustments as mentioned in this appeal.

For your reference Proposal is attached.

With Best regards:

Sameeullah S/O Choudary Rahmat Ali
