**OBJECTIONS ON THE CONSTITUENCIES OF PS-87, PS-88, PS-89, PS-90 & PS-91.**

1. Delimitation committee while crafting out PS-87 Malir-I, under The FORM 5 of ECP (preliminary delimitation), does not qualify the geographic compactness, homogeneity & other necessary elements.
2. The authorities have not taken into consideration the following section 20 of Election Act 2017, before delimiting the above mentioned constituencies, which reads;

*20. Principles of delimitation.—(1) All constituencies for general seats shall, as far as practicable, be delimited having regard to the distribution of population in geographically compact areas, physical features, existing boundaries of administrative units, facilities of communication and public convenience and other cognate factors to ensure homogeneity in the creation of constituencies.*

2

3. PS-87 covers almost whole Malir Distirct which makes it inconvenient for public communication.
4. Map issued by the authorities does not mention the boundary between Khanto (Landhi-II & Landhi-III TC 04 & 05) which seems to be an error/mistake. Population of Khanto (Landhi-II TC 04) & Khanto (Landhi-III TC 05) is 58,361 & 83,307, respectively.
5. Malir Cantontment which has Population of 139,052; and Faisal Cantonment which has Population of 29080 is not mentioned on the ECP Form 5 which falls in PS-88 Malir-II.
