- (c) add 1 to the quotient ignoring the remainder, if any, and the resultant number is the quota.

121. General instructions.— (1) For the purpose of counting of votes, the Returning Officer shall disregard all fractions and ignore all preferences recorded for candidates already elected or excluded from the poll.

(2) A candidate shall be deemed to have been elected if, at the end of any count or at the transfer of any parcel or sub-parcel of an excluded candidate, the value of ballot papers credited to such candidate is equal to or greater than the quota, and no further ballot paper shall be transferred to him.

122. Transfer of surplus.— (1) If at the end of any count the value of the ballot papers credited to a candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this rule to the continuing candidates, according to the preferences indicated on the ballot papers of that candidate.

(2) If more candidates than one have a surplus, the largest surplus shall be dealt with first and the others in the order of magnitude:

Provided that every surplus arising on the first count shall be dealt with before those arising on the second count and so on.

(3) If more candidates than one have an equal surplus arising out of the same count, the surplus of the candidate credited with the greatest value at the earliest count at which the values credited to these candidates were unequal, shall be dealt with first and, where the values credited to such candidates were equal at all counts, the Returning Officer shall determine by lot which surplus will be dealt with first.

(4) If the surplus of any candidate to be transferred arises from original votes only, the Returning Officer shall examine all the papers in the parcel of that elected candidate, sort out un-exhausted papers into sub-parcels according to the next available preference recorded thereon and shall make a separate sub-parcel of the exhausted ballot papers.

(5) If the value credited to an elected candidate whose surplus is to be transferred arises from original and transferred votes, or from transferred votes only, the

Returning Officer shall examine the ballot papers contained in the sub-parcel last transferred to the elected candidate.

(6) If the total value of the unexhausted papers is equal to or less than the surplus, the Returning Officer shall transfer each sub-parcel of unexhausted papers to the contesting candidate indicated thereon as the 'voters' next preference, each being transferred at the value at which it was received by the candidate whose surplus is being transferred.

(7) When the total value of the unexhausted paper is less than the surplus, the exhausted papers shall be set aside at a value which is equal to the difference between the surplus and the total value of the unexhausted papers.

(8) If the total value of the unexhausted papers is greater than the surplus, the Returning Officer shall transfer each paper in each sub-parcel of unexhausted papers to the continuing candidate indicating thereon as the 'voters' next preference and the value at which each paper shall be transferred shall be ascertained by dividing the surplus by the total number of unexhausted papers (fractional remainders being disregarded), except that the consequential loss of the value shall be noted on the result sheet.

(9) The papers transferred to each candidate shall be added in the form of a sub-parcel to the papers already belonging to such candidate.

(10) All papers in the parcel or sub-parcel of an elected candidate not transferred under this rule shall be set apart as finally dealt with.

123. Exclusion of candidates lowest on the poll.—If, at the end of any count, no candidate has a surplus and one or more seats remain unfilled, the Returning Officer shall exclude from the count the candidate credited with the lowest value, shall sort the unexhausted papers into sub-parcels according to the next available preferences recorded thereon and shall transfer each sub-parcel to the contesting candidates for whom the next preference is recorded.

124. Order of transfer of sub-parcel.— (1) The parcel containing the original votes of excluded candidate shall be transferred first, the transfer value of each paper being 100.

(2) The sub-parcels containing transferred votes shall then be transferred in the order in which and at the value at which the excluded candidate obtained them.

(3) Each such transfer shall be deemed to be a separate transfer.

(4) When a candidate has been excluded and as a result of transfer of his votes another candidate has been elected with a surplus, in such a case his surplus votes shall be transferred before another exclusion is considered.

(5) In the transfer of each parcel or sub-parcel, a separate sub-parcel shall be made of the exhausted papers which shall be set aside at the value at which the excluded candidate obtained them.

125. Filling the last vacancies.— (1) If, at the end of any count as a result of transfer of papers, the number of continuing candidates is equal to the number of vacancies to be filled, no further transfer shall be made.

(2) When the number of continuing candidates is equal to the number of vacancies remaining unfilled, the continuing candidates shall thereupon be deemed to be elected.

(3) When, at the end of any count, only one vacancy remains unfilled and the value credited to someone continuing candidate exceeds the total of the value credited to the other continuing candidates together with any other surplus not transferred, that candidate shall thereupon be deemed to have been elected and no further transfer shall be made.

(4) When, at the end of any count, only one vacancy remains unfilled and there are only two continuing candidates and each of them has the same value of votes at all counts and no surplus remains capable of transfer, the Returning Officer shall decide by lot which of them shall be excluded and, after excluding him in the manner aforesaid, declare the other candidate to be elected.

126. Equality of candidates lowest on the poll.— (1) If at any time it becomes necessary to exclude a candidate and two or more candidates have the same value of votes and are the lowest on the poll, regard shall be had to the original votes of each candidate and the candidate for whom fewest original votes are recorded shall be excluded and, if the value of their original votes is equal, the candidate with the smallest value at the earliest count at which these candidates had unequal values shall be excluded.

(2) If two or more candidates are lowest on the poll and each has the same value of votes at all counts, the Returning Officer shall decide by drawing of lot which candidate shall be excluded.

127. Provision for recounting.— (1) Any candidate or, in his absence, his agent may at any time during the counting of votes, either before commencement or after the completion of any transfer of votes, whether surplus or otherwise, request the Returning Officer to re-examine and recount the papers of all or any of the candidates, not being papers set aside at any previous transfer as finally dealt with, and the Returning Officer shall forthwith re-examine and recount the same accordingly:

Provided that nothing, in this sub-rule shall make it obligatory on the Returning Officer to recount the same votes more than once.

SCHEDULE-I

PART 'A' **ILLUSTRATION**

(See rule 124)

Let it be assumed that there are ten members to be elected and there are twenty candidates, A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S and T.

1. FIRST COUNT

Arrangement and counting of voting papers.— The voting papers having been examined, the papers that are invalid being rejected, the valid papers are arranged in separate parcels under the names of the candidates marked with figure 1. Each separate parcel is counted, and the result of the count may be supposed to be as follows:—

		Valid Paper
A	6
B	4
C	3
D	3
E	3
F	2
G	2
H	2
I	2
J	2
K	2
L	1
M	1
N	1
O	1
P	1
Q	1
R	1
S	1
T	1
		40

Each valid voting paper is deemed to be of the value of 100 and the values of the votes obtained by the respective candidates are as shown in the first count in the Result Sheet.

The Quota

Ascertainment of quota.— It is found that the full total values in all the parcels is 4000. This total is divided by 11 (i.e., the number which exceeds by one, the number of vacancies to be filled), and 364 (the quotient 363 disregarding the fractional remainder increased by (1) is the “Quota”, the value sufficient to secure the return of a candidate.

Candidate with quota deemed to be elected.— A’s and B’s values each exceed the quota and they are thus deemed to be elected. .

2. Second Count

Transfer of surplus.— A and B both have surpluses which have to be transferred.

Largest surplus first.— A's surplus of 236, being the largest is first transferred. This surplus arises from original votes, and therefore, the whole of A's papers are divided into sub-parcels according to the next available preferences thereon, a separate parcel being made of the non-transferable papers (any papers showing a second surplus for B—who, having a surplus, is deemed to be elected—being placed in the sub-parcel of the candidate for whom a third preference is indicated, or in the sub-parcel of non-transferable papers if a third preference is not indicated).

The result is found to be as follows:—

A next available preference is indicated for C on	2 papers
A next available preference is indicated for D on	1 paper
A next available preference is indicated for F on	1 paper
A next available preference is indicated for L on	1 paper
Total of transferable papers	5 papers
Total of non-transferable paper	1
Total of papers	6

The values of the papers in the sub-parcels are:—

to C.....	200
to D.....	100
to F.....	100
to L.....	100
Total value of transferable papers	500
Total value of non-transferable papers	100
Value Total	600

Value at which paper is to be transferred.— The surplus is less than the total value of the transferable papers. The surplus is, therefore, transferred as follows:

All the transferable papers are transferred, but at a reduced value, which is ascertained by dividing the surplus by the number of transferable papers. The reduced value of all the papers, when added together, with the addition of any value lost as the result of fractions being disregarded, equals the surplus. In this case the new value of each paper transferred is $236 \div 5$ (the number of transferable papers) = 47; the residue of the value of the five transferable papers, namely, 264 together with the non-transferable paper at its original value of 100, being required by A to constitute his quota. The loss of value owing to fractions being disregarded, as shown in the Result Sheet, is I.

The values of the sub-parcels transferred are:—

C-94 (i.e., 2 papers at the value of 47).
D-47 (i.e., 1 paper at the value of 47).
F-47 (i.e., 1 paper at the value of 47)
L-47 (i.e., 1 paper at the value of 47).

The operations involved are summarized in the following table:—

TRANSFER OF A's SURPLUS

Value of surplus.....	236
Number of transferable papers.....	5
Number of non-transferable papers.....	1
Original value of each paper in A's parcel.....	100
Value of transferable papers.....	500
Value of non-transferable papers.....	100

New value of each paper transferred:—

$$\frac{\text{Surplus}}{\text{Number of transferable papers}} = \frac{236}{5} = 47$$

Names of candidates indicated as the next available preference	No. of papers to be transferred	Value of sub-parcel to be transferred
C	2	94
D	1	47
F	1	47
L	1	47
Total.....	5	235
Number of non-transferable papers	1	—
Loss of value owing to disregarding of fractions	—	1
Total.....	6	236

The result of this operation is as shown on the Result Sheet under the heading Second Count.

3. **THIRD COUNT**

Transfer of surplus arising at a prior count.— C now has surplus, which it is necessary to transfer, but B's surplus, having arisen at a prior count, is first transferred.

B's surplus of 36 is transferred in a similar manner to A's but as there are no non-transferable papers, the value at which these papers are transferred is $36 / 4 = 9$.

The surplus is distributed, according to next available preferences, as follows:—

D — (1 x 9).....	9
G — (1 x 9)	9

L — (1 x 9)	9
M — (1 x 9)	9
Loss of value owing to disregard of fraction.....	Nil
Total	<u>36</u>

4. **FOURTH COUNT**

Transfer of surplus only sub-parcel last received examined.— C's surplus of 30 is next to be transferred. In this case only the last sub-parcel received by C is taken into account. This sub-parcel consists of two papers transferred from A at the value of 47 each.

Surplus less than total value of the transferable papers.— The details are as follows:

Value of C's surplus.....	30	
Number of papers in sub-parcel.....	2	
Number of transferable papers.....	2	
Value of each paper.....	47	
Value of transferable papers	94	
New value of each paper transferred.....	<u>30</u>	= 15
	2	

A next available preference is shown for M on 1 paper and

A next available preference is shown for N on 1 paper.

The papers are transferred at the value of 15 and this value is credited to M and N respectively, as shown on the Result Sheet.

5. **FIFTH COUNT**

Exclusion of a candidate.— No candidate now has a surplus, and one candidate has to be excluded. At the end of the fourth count, the lowest value credited to any candidate is 100. There are, however, six candidates to whom this value is credited, viz., O, P, Q, R, S, T who are also credited with equal values at all counts. One of these candidates has to be excluded. Two alternatives can be followed to do so.

Alternative-I.— The Returning Officer draws lots and O is excluded in this way.

Alternative-II.— The Returning Officer accordingly arranges the papers of these six candidates according to the next available preference recorded thereon for continuing candidates (including candidates O, P, Q, R, S, T)

The result of this arrangement is as follows:—

On O's paper the next available preference is indicated for T
 On P's paper the next available preference is indicated for S.
 On Q's paper the next available preference is indicated for R.
 On R's paper the next available preference is indicated for Q.
 On S's paper the next available preference is indicated for P.
 On T's paper the next available preference is indicated for M.

The values are therefore:—

for M 100
 for O Nil
 for P 100

for	Q	100
for	R	100
for	S	100
for	T	100

Thus the smallest value of next available preference indicated for candidates O, P, Q, R, S, T, is that shown for O *i.e.* Nil.

Transfer at original value:— O is accordingly excluded. O's parcel consists of one original paper which is transferred to T at its value of 100 (there are no sub-parcels).

6. **SIXTH COUNT**

Determination by lot.— No candidate has a surplus, and there are now four candidates equal and lowest. As a result of similar procedure it is found that the values of the next available preferences are in this case equal for each of the candidates in question; the Returning Officer therefore determines by lot which of the candidates namely P, Q, R, S, is to be excluded.

The slip of paper containing the name of S is drawn first, S is thus excluded and the value of this paper (100) is transferred to P.

7. **SEVENTH COUNT**

Similarly R is excluded, and the value of his original vote (100) is transferred to Q, the next available preference.

8. **EIGHTH COUNT**

No candidate has a surplus, N is lowest, and is excluded. N's parcel of original votes contains 1 paper on which a next available preference is indicated for H. The value of this paper is 100, its original value.

Transfer of sub -Parcel containing transferred votes.— The sub-parcel first received contains 1 paper which N received at a value of 15, and on which the next available preference is indicated for M.

The papers are transferred as follows: —

To	H	1 paper at the value of 100
To	M	1 paper at the value of 15

Each of these transfers is carried out separately, but the combined result is shown on the Result Sheet under the heading Eighth Count.

9. **NINTH COUNT**

There is still no surplus, M being credited with the lowest value, has to be excluded.

His parcel contains 1 original paper, on which the next available preference is expressed for E; this paper is, therefore, transferred to E at the value of 100. The value of E's votes now exceeds the quota, and he is declared elected.

M has also three sub-parcels, as follows:—

- (a) Sub-parcel received first, containing 1 paper at the value of 9. This paper bears a next preference for E, but as E is now elected; this paper is not given to E but is transferred instead to the next available preference after E, which is I.

- (b) Sub-parcel received second, containing 1 paper at the value of 15. The next available preference on this paper is for P.
- (c) Sub-parcel received third, containing 1 paper at the value of 15. This paper bears a next available preference for T.

Thus, the transfers in this count are as follows:—

To	E	1 paper at the value of 100
To	I	1 paper at the value of 9
To	P	1 paper at the value of 15
To	T	1 paper at the value of 15

10. **TENTH COUNT**

E's surplus of 36 must now be transferred. This arises from the last sub-parcel E received which contains 1 paper at the value of 100. This paper is therefore, transferred at the value of 36; the next available preference expressed on it is for T.

11. **ELEVENTH COUNT**

L is now lowest.

His parcel of original votes contains one paper, on which F is indicated as next preference.

This paper is transferred to F at the value of 100.

The sub-parcel first received contains one paper received at the value of 47, indicating no further available preference.

This paper is non-transferable at its value of 47.

In the sub-parcel net received, the paper contained therein indicates J as the next available preference.

This paper is transferred to J at its value of 9.

12. **TWELFTH COUNT**

Two candidates equal and lowest. Regard had to total value of original votes.— There is still no surplus. Two candidates are lowest, and are equal, K and Q being each credited with the value of 200. Regard is therefore had to the total-value of original votes credited to these candidates, K had 200 and Q 100. Q is therefore, excluded.

- (a) On examination of Q's parcels, it is found that in the parcel of original votes there is one paper on which no preference is indicated for a continuing candidate. (This paper indicated a next preference for R who has been already excluded).
- (b) The sub-parcel received by Q from R on exclusion at the value of 100 indicates K as next available preference.

The value of 100 is added to the value of the non-transferable papers not effective in respect of the parcel.

The value of 100 is credited to K in respect of sub-parcel.

13. THIRTEENTH COUNT

Regard had to first count at which values were unequal.— There are now three candidates lowest, viz, G, I, J, the value in each case being 209.

The values were equal at the first count, and regard is therefore had to the earliest count at which they had unequal values.

		First count	Third count	Ninth count
G	200	209	209
I	200	200	209
J	200	200	200

J is thus lowest and is excluded.

J's parcel of original votes is examined and found to contain 2 papers (original value of 100 each).

On one paper the next available preference is indicated for G and on the other paper no preference is indicated for a continuing candidate.

The paper is accordingly transferred to G at a value of 100 and the non-transferable paper set aside at the value of 100.

The sub-parcel contains one paper received at the value of 9, which indicates I as next available preference. This paper is transferred to I at the value of 9.

14. FOURTEENTH COUNT

G and I, having each received votes by transfer on the thirteenth count, are no longer lowest; each has more votes than P, who is lowest with 215.

P is therefore excluded.

His parcel and sub-parcels (two) are similarly examined, and it is found that the next available preference on the original vote was for I.

Note: The next preference was for S, who at this count is not a continuing candidate, having been excluded.

(a) In the sub-parcel first received, containing one paper (at the sixth count at the value of 100), a next available preference is indicated for T.

(b) In the next sub-parcel, containing one paper received at the value of 15 (ninth count), no further available preference is indicated.

The paper at (a) is transferred to T at the value of 100.

The paper at (b) is set aside as not effective at the value of 15.

There are now six vacancies remaining to be filled, and there are seven continuing candidates. Two of these candidates, H and K, are lowest, but are equal. Upon examination it is found that at the first count (viz. the eighth), at which the values credited to them were unequal, K was lowest, K is, therefore, formally excluded. Thus the number of continuing candidates is equal to the number of vacancies remaining unfilled:

Last vacancies.— These remaining vacancies being filled, no further transfer is required.

ILLUSTRATION

(See rule 124)

Let it be assumed that there are 19 seats which include 5 reserved seats for Ulema, technocrats and other professionals.

23 candidates are seeking election to general seats and of them 11 candidates are for reserved seats.

The procedure for election is as under:—

- (b) Every voter has to record 19 preferences on one ballot paper. 5 preferences must be recorded in category “S”.
- (c) Counting of votes will be done together. 14 candidates scoring the highest votes in category “G” and 5 candidates scoring the highest votes in category “S” will be declared elected, regardless of whether there are some candidates in category “G” whose scores are higher than those declared elected in category “S” or *vice versa*.
